### **12. Proposal Validity**

#### **a. Proposal Validity Period**

12.1 The Data Sheet indicates the period during which the Consultant's Proposal must remain valid

after the Proposal submission deadline.

- 12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.
- 12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation and may be subject to sanctions in accordance with IT C5.

**b. Extension of Validity Period**

- 12.4 The Procuring Entity will make its best effort to complete the negotiations within the proposal's validity period. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluations core, however, will remain to be based on the evaluation of the CV of the original Key Expert.
- 12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Procuring Entity, such Proposal will be rejected.

**c. Sub-Contracting**

- 12.9 The Consultant shall not subcontract the whole or part of the Services without reasonable justification and written approval of the Procuring Entity.

**13. Clarification and Amendment of RFP**

Any request for clarification must be sent in writing, or by standard electronic means, to the Procuring Entity's address indicated in the Data Sheet. The Procuring Entity will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all Consultants. Should the Procuring Entity deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:
- 13.2 At any time before the proposal submission deadline, the Procuring Entity may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall

be sent to all invited Consultants and will be binding on them. The Consultants shall acknowledge receipt of all amendments in writing.

- 13.3 If the amendment is substantial, the Procuring Entity may extend the proposal submission deadline to give the Consultants reasonable time to take an amendment into account in their Proposals.
- 13.4 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.

#### **14. Preparation of Proposals—Specific Considerations**

- 14.1 While preparing the Proposal, the Consultant must give particular attention to the following:
- (a) If a Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so only if only one Proposal is submitted, in accordance with ITC 11. Above. A Consultant cannot associate with shortlisted Consultant(s). When associating with non-shortlisted/non-invited firms in the form of a joint venture or a sub-consultancy, the shortlisted/invited Consultant shall be a lead member. If shortlisted/invited Consultant associates with each other, any of them can be a lead member.
  - (b) The Procuring Entity may indicate in the Data Sheet the estimated amount or Key Experts' time input (expressed in person-month), or the Procuring Entity's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same. This clause shall not apply when using Fixed Budget selection method.
  - (c) For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input shall not be disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the Data Sheet, and the Financial Proposal shall not exceed this budget.
  - (d) Key Experts shall not appear in more than one proposal unless so allowed in the Data Sheet. Invited firms must confirm and ensure their Key experts do not appear in proposal of other invited firms, otherwise proposals with Key experts appearing in other proposals will be rejected.

#### **15. Technical Proposal Format and Content**

- 15.1 The Technical Proposal shall be prepared using the Standard Forms provided in Section 3 of the RFP and shall comprise the documents listed in the Data Sheet under ITC 10.1. The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.
- 15.2 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive.

#### **16. Financial Proposal**

- 16.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the Data Sheet. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Procuring Entity's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.
- 24.3 Lump-Sum Contracts - If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical correction nor price adjustments shall be made. ## **25. Taxes**

## **28. Abnormally High Prices**

- 28.1 An abnormally high price is one where the proposal price, in combination with other constituent elements of the proposal, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Consultants is compromised.
- 28.2 In case of an abnormally high tender price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct, and review the RFP to check if the specifications, TOR, scope of work and conditions of contract are contributory to the abnormally high proposals. The Procuring Entity may also seek written clarification from the Consultants on the reason or the high proposal price. The Procuring Entity shall proceed as follows:
- i) If the proposal price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the proposal depending on the Procuring Entity's budget considerations.
  - ii) If specifications, TOR, scope of work and/or conditions of contract are contributory to the abnormally high proposal prices, the Procuring Entity shall reject all proposals and may re- invite for proposals for the contract based on revised estimates, specifications, TOR, scope of work and conditions of contract.
- 28.3 If the Procuring Entity determines that the Proposal Price is abnormally too high because genuine competition between Consultants is compromised (often due to collusion, corruption or other manipulations), the Procuring Entity shall reject all Proposals and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before re-inviting for proposals.

### **3. APPENDIX TO FORM OF PROPOSAL ON FRAUD AND CORRUPTION CLAUSE (for information)**

(Appendix shall not be modified)

#### **Purpose**

the government of Kenya's Anti-Corruption and Economic Crime laws and their sanction's policies and procedures, Public Procurement and Asset Disposal Act (no. 33 of 2015) and its Regulation, and any other Kenya's Acts or Regulations related to Fraud and Corruption, and similar offences, shall apply with respect to Public Procurement Processes and Contracts that are governed by the laws of Kenya.

Kenya's public procurement and asset disposal act (no.33 of 2015) under Section 66 describes rules to be followed and actions to be taken in dealing with Corrupt, Coercive, Obstructive, Collusive or Fraudulent practices, and Conflicts of Interest in procurement including consequences for offences committed. A few of the provisions noted below highlight Kenya's policy of no tolerance for such practices and behavior:

- (3) Without limiting the generality of the subsection (1) and (2), the person shall be: -
  - a) disqualified from entering into a contract for a procurement or asset disposal proceeding; or
  - b) if a contract has already been entered into with the person, the contract shall be avoidable;

  - iv) "coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
  - v) "obstructive practice" is: deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede investigation by Public Procurement Regulatory Authority (PPRA) or any other appropriate authority appointed by Government of Kenya into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or Acts intended to materially impede the exercise of the PPRA's or the appointed authority's inspection and audit rights provided for under paragraph 2.3e. below.
- b) Defines more specifically, in accordance with the above procurement Act provisions set forth for fraudulent and collusive practices as follows:
- "fraudulent practice" includes a misrepresentation of fact in order to influence a procurement or disposal process or the exercise of a contract to the detriment of the procuring entity or the tenderer or the contractor, and includes collusive practices amongst tenderers prior to or after tender submission designed to establish tender prices at artificial non-competitive levels and to deprive the procuring entity of the benefits of free and open competition.
- c) Rejects a proposal or award<sup>1</sup> of a contract if PPRA determines that the firm or individual recommended for award, any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/ or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

## **FORM FIN 3D: BREAKDOWN OF REMUNERATION RATES [FOR TIME BASED CONTRACTS ONLY]**

### **1. Review of Remuneration Rates**

- 1.1 The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. Form FIN3 C can be used to provide a breakdown of rates.
- 1.2 The Form FIN 3C shall be completed and attached to the Financial Form-3. As agreed at the negotiations, breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.
- 1.3 At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Procuring Entity is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

### **2 Rate details are discussed below:**

- (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus, except where these are included bylaw or government regulations.
- (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
- (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
- (iv) Cost of Leave The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:  
$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - \text{ph} - v - s]}$$
Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.  
Please note that leave can be considered as a social cost only if the Procuring Entity is not charged for the leave taken.
- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed

lists of items making up the overheads and the percentage by which each relates to basic salary. The Procuring Entity does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.

- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw over heads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

**FORM FIN-4 BREAKDOWN OF REIMBURSABLE**

When used for Lump-Sum contract assignment, information to be provided in this Form shall only be used to demonstrate the basis for calculation of the Contract ceiling amount, to calculate applicable taxes at contract negotiations and, if needed, to establish payments to the Consultant for possible additional services requested by the Procuring Entity. This form shall not be used as a basis for payments under Lump-Sum contracts. This form shall be filled for Time-Based Contracts to form the basis of contract negotiations.

## **SECTION 5. TERMS OF REFERENCE**

### **TERMS OF REFERENCE FOR THE PROVISION OF CONSULTANCY SERVICES TO UNDERTAKE RESEARCH ON WAGE BILL SUSTAINABILITY IN KENYA- STUDY ON THE REALISM OF 35% WAGEBILL TO REVENUE RATIO IN THE PUBLIC SERVICE.**

#### **1.0 Background**

The Salaries and Remuneration Commission (SRC) is established under Article 230 (1) of the Constitution of Kenya to set and regularly review the remuneration and benefits of all State Officers, and to advise the national and county governments on the remuneration and benefits of all other public officers. In discharging its mandate, the Commission is guided by the constitutional principles set out in Article 230 (5) of the Constitution, and Section 12 of the Salaries and Remuneration Commission Act, 2011.

- a) The constitutional principles are:
  - (i) The need to ensure that the total public compensation bill is fiscally sustainable.
  - (ii) The need to ensure that the public services can attract and retain the skills required to execute their functions.
  - (iii) The need to recognize productivity and performance; and
  - (iv) Transparency and fairness.
- b) Statutory requirement: Equal remuneration to persons for work of equal value as required by Section 12 of the SRC Act, 2011.

Pursuant to its constitutional mandate, the Commission is required to ensure that total public compensation is fiscally sustainable.

Public service wage bill refers to the total cost that a government incurs to compensate for expertise and services rendered, facilitate employees to work and support the well-being of its employees. It comprises of salaries, remunerative and facilitative allowances, and benefits including pension and gratuity.

A fiscally sustainable public wage bill is an enabler to achieving the desired expansion in public services and economic development agenda as it frees resources to spur investments that promote economic growth. On the contrary, an unsustainable level of public wage bill is a threat to public expenditure and leads to crowding out of resources that could have been used for development priorities and enhanced social services.

#### **2.0 Justification**

The analysis of public service wage bill and determination of its fiscal sustainability involves the assessment of the **Wage Bill to Revenue ratio**. The Public Finance Management (PFM) Act (2012) and Regulations (PFMR) (2015) set the threshold for National and County Governments' wage bill-to-revenue ratio at 35 percent. However, some public bodies, by virtue of their mandate and scope of their functions (e.g. Universities and training institutions), inevitably engage a higher number of employees, resulting in higher wage bill that surpass the 35 percent.

For such institutions to adhere to the requirement, they are forced to either engage fewer employees who may not be adequate for effective service delivery to the public, or offer low remuneration, which compromises attraction and retention of the requisite skills.

Empirical evidence has shown that whereas commercial public bodies record relatively low wage bill-to-revenue ratios, service public bodies such as universities record very high ratios (above 50 percent). Further, in the Counties, once the infrastructure is fully developed, the main expenditure thereafter is the operational cost, whose major component is personnel emoluments, which has a direct impact on the wage bill to revenue ratio. This leaves Counties in a dilemma between service delivery and compliance with the wage bill-to-revenue ratio requirement of a maximum of 35 percent.

This study shall inform the sectoral and institutional strategies and action plans towards achieving the PFMR (2015) wage bill fiscal sustainability threshold of not more than 35 percent in both county and national governments. Determination of the realism of the 35 percent wage bill to revenue ratio as required by the PFMR (2015) per sector and at the National and County Governments, and development of the ideal thresholds thereof, is expected to midwife the current fiscal dilemma between service delivery and compliance with this requirement. Disparate sectors will be advised on the specific ideal thresholds on the ratio that shall ensure efficiency, effectiveness and optimal productivity of the public service, while promoting fiscal affordability and sustainability of the wage bill.

### **3.0 Scope**

The study will cover the public sector. This includes the county governments, state corporations, universities, research and tertiary institutions, disciplined forces, constitutional commissions and independent bodies, and the civil service. At least 50-70% of the institutions in each category will be a significant number for the study.

The study shall also involve comparative analysis for at least 10 countries of similar jurisdictions as Kenya, with best practices across the globe.

The study will also borrow a comparative study for not less than 3 private sector comparator institutions per sector, where it is relevant.

#### **Data collection criteria.**

Most of the data collected shall be secondary data from Public Institutions and selected countries. The data collection will be done by the consultants, with remote assistance from SRC. An introduction letter to the Public Institutions shall be issued by SRC. The cost incurred during the data collection shall be incurred by the consultant..

### **4.0 Objective**

#### **4.1 General objective**

The broad objective of the study is to evaluate the sustainability of public sector wage bill in Kenya in light of the 35% threshold as per PFM Act (2012) and Regulation (2015).

## 4.2 Specific objectives

The specific objectives of undertaking the study are as follows:

- a) Analyze the wage bill to revenue ratios in the public sector in Kenya;
- b) Undertake a comparative analysis of the wage bill-to-revenue ratio between public and private sectors in Kenya;
- c) Analyze the wage bill-to-revenue ratio in public sector in selected developing and developed countries;
- d) Examine the relationship between changes in the wage bill and labour productivity in the public and private sectors in Kenya; and
- e) Determine the ideal wage bill-to-revenue ratio for various sub-sectors within the public sector in Kenya.

## 5.0 TIMELINES

To achieve the above, the consultancy firm/consultant is expected to complete the task within three months. The work is expected to commence on or about April, 2025.

## PREFACE

This Section includes a Time-Based Contract. It includes General Conditions of Contract ("GCC") that shall not be modified, and Special Conditions of Contract ("SCC"). The SCC include clauses specific to each contract to supplement, but not over-write or otherwise contradict, the General Conditions of Contract.

Time-Based Contract. This type of contract is appropriate when it is difficult to define or fix the scope and the duration of the services, either because they are related to activities carried out by others for which the completion period may vary, or because the input of the consultants required for attaining the objectives of the assignment is difficult to assess. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant's remuneration is determined on the basis of the time actually spent by the Consultant in carrying out the Services and is based on (i) agreed upon unit rates for the Consultant's experts multiplied by the actual time spent by the experts in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Procuring Entity to closely supervise the Consultant and to be involved in the daily execution of the assignment.

The template is designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. In some consultancy assignments such as design and construction supervision, both Lump-Sum and Time- Based Contracts are used and signed with the Consultant. In that case, the Lump-Sum Contract would apply for the design part of the Services while the construction supervision part would be based on a Time-Based Contract. In such event; both types of contracts shall be signed at the same time.

In case a Time-Based Contract is not used, please delete the contract template for time-based contract before issuance of the RFP to Consultants.

---

<sup>1</sup>The Guarantor shall insert an amount representing the amount of the advance payment and denominated either in the currency (ies) of the advance payment as Specified in the Contract, or in a freely convertible currency acceptable to the Procuring Entity.

<sup>2</sup>Insert the expected expiration date. In the event of an extension of the time for completion of the Contract the Procuring Entity would need to request an extension of This guarantee from the Guarantor. Such request must be in writing and must be made prior to the expiration date established in the guarantee. In preparing this guarantee, the Procuring Entity might consider adding the following text to the form, at the end of the pen ultimate paragraph: "The Guarantor agrees to a one-time extension of this guarantee for a period not to exceed [six months] [one year], in response to the Procuring Entity's written request for such extension, such request to be presented to the Guarantor before the expiry of the guarantee."
